Memberships support restoration projects within Maudslay State Park

Maudslay State Park is a hidden gem on the North Shore.

Located in Historic Newburyport, bordered by the Merrimack and Artichoke Rivers and featuring formal gardens, architectural plantings, trails that meander through acres of native mountain laurel and rhododendron and winter home to a growing population of Bald Eagles, the Park offers a convenient and amazing retreat from the hectic lives we all live.

Join us as we work to renovate, maintain and reconstruct the work of the Moseley Family who created Maudslay in the early 1900's.

Whether you simply take a moment to join the Association or are able to offer your time and labor, every contribution helps in our efforts.

Your help is necessary and appreciated.
